The Group plans to apply the abovementioned accounting standards, amendments and interpretations:

- from the annual period beginning on 1 January 2019 for those accounting standard, amendments and interpretation that are effective for annual periods beginning on or after 1 January 2019, except for that marked with “***” which is not applicable to the Group.
- from the annual period beginning on 1 January 2020 for those amendments that are effective for annual periods beginning on or after 1 January 2020.

The Group does not plan to apply MFRS 17, Insurance Contracts that is effective for annual periods beginning on 1 January 2021 as it is not applicable to the Group.

The adoption of the abovementioned Amendments to MFRSs did not have any material impact on the financial statements of the Group, except as mentioned below:

MFRS 16 Leases

MFRS 16 replaces the guidance in MFRS 117, Leases, IC Interpretation 4, Determining whether an Arrangement contains a Lease, IC Interpretation 115, Operating Leases – Incentives and IC Interpretation 127, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to be classified as finance or operating lease.

On the date of initial application, The Group applied the simplified transition approach and did not restate comparative amounts for the period prior to first adoption.

The finance lease liabilities were measured at the present value of the remaining lease payments, discounted using the incremental borrowing rate as at 1 April 2019. Right-of-use assets were measured at an amount equal to the lease liabilities, adjusted by the amount of the prepaid or accrued lease payments. Accordingly, there is no impact to the accumulated profit of the Group as at 1 April 2019.

On the income statement, expenses which previously included rental, were replaced by interest expenses on lease liabilities and depreciation of the right-of-use assets. On the statement of cash flows, operating lease rental outflows previously recorded within “net cash flows from operating activities” were reclassified as “net cash flows used in financing activities” for repayment of principal and interest of lease liabilities.

The impact of adopting MFRS 16 to opening balances are as follows:

Impact of adopting MFRS 16 at 1 April 2019:

	RM '000
Property, plant and equipment	(6,165)
Right of use assets	10,129
Finance lease liabilities	(3,964)

Revenue	108,696	111,933	(3,237)	330,565	320,685	9,880
Profit before tax	1,213	6,517	(5,304)	8,438	18,270	(9,832)

During the current quarter ended 31 December 2019, the Group recorded lower revenue of RM108.7 million as compared to RM111.9 million in the previous corresponding quarter. Whereas, the pre-tax profit of the Group for the quarter under review is lower at RM1.2 million, compared with the pre-tax profit of RM6.5 million in previous corresponding quarter. The lower revenue and profit were mainly due to the decrease of turnover in Cambodia Labelling Segment.

On a year-to-year basis, the Group recorded higher revenue of RM330.6 million as compared to RM320.7 million achieved in the previous corresponding period as due to the increase of Cambodia Apparel turnover. The pre-tax profit of the Group for the period under review recorded at RM8.4 million as compared to pre-tax profit of RM18.3 million recorded for the corresponding period. The lower profits in current year was mainly due to decrease of sales order in labelling business and higher other income in previous corresponding quarter which is due to one-off gain on sales of land and building amounted to RM4.5 million.

15. COMMENT ON MATERIAL CHANGE IN THE QUARTERLY RESULTS

Total revenue increased from RM107.6 million recorded in the preceding quarter to RM108.7 million achieved in the current quarter. The pre-tax profit of the Group recorded at RM1.2 million as compared with a pre-tax profit of RM4.3 million recorded for the preceding quarter mainly due to the decrease of order in China Apparel and this resulted in a less profit contribution from China Apparel.

16. COMMENTARY ON PROSPECTS

Apparel segment

This segment will be affected by the development of the COVID-19's epidemic to a large extent in the coming quarter, and the whole macroeconomic change will be impacted briefly after the epidemic is under control as well as Cambodia's business will face some challenges during following quarters as European Union may withdraw Everything But Arms (EBA)'s free import tariffs enjoyed by Cambodia exports partially.

Labelling segment

This segment will face lacklustre growth in the fiscal year 2020 due to depressed consumer sentiment in Malaysia but optimistic that positive profit-making model shall be able to maintain in Malaysia, while Cambodia's labelling business remains challenging.

Others segment

The Board is of the view that the printing and embroidering will record a healthy sales growth in the next quarter.

The Board will play a leading role and work closely with the Management to ensure that the group can smoothly pass through the uncertain economic environment at this stage. The Board is also convinced that the group's steady construction work style in the past will create better

At the same time, the Management will continue to optimize our operating environment, develop new markets and more diversified to improve customer satisfaction as well as endeavour to achieve towards a satisfactory financial result for the fiscal year.
